Subject: VIWAPA Cable

As to the VIWAPA cables. The original permit was submitted in August of 2017 and no action was ever taken on it, partially due to the storms. The application was amended in August of 2018 to include an additional cable around St. John. This is a minor permit application because that is the classification cables fall under. We have been pushing on this for quite a while. Minor permits usually should take 60 to 90 days.</=iv>
