Jefferey

I'm just dropping you a quick note to touch base with you. I have been following all of the News Coverage thus far and Re=ding (then Re-Reading) everything to stay on top of where things currently=stand.

With all that is going on right now, this is clearly=a "Legal Matter" at this point, so your responses thus far, wh=ch from what I have seen, have been "No Comment" are right on =he mark, and exactly what they should be for right now.

There is obviously a lot ahead, and depending on how=everything plays out down the road, there will be a point when things do i=evitably reach their conclusion, and you will then have reached that point=where you are able to say something, if you wish, other than "No Comment" / Let me know at that poi=t, given I already have a few thoughts for you around that topic.

On the other topic I wrote to you about (Which you h=d said give you would take some time and give some thought to), I have mad= contact and I am in touch with the former Director of the Vatican Observa=ory for over 35 years, Father/Dr. George Coyne. I just wanted to pass along the Update to you.

Hope you are doing OK

McGee
