Hello,

This is Bart With EBL Watercr=ft, We are a GIBBS Authorized Quadski Servicing Dealership.

I am the Owner and Have been =ertified By Gibbs as a Master Technician.

My recommendation for Your Qu=dski since it has been sitting for many years is to have the vehicle shipp=d to Us to do a thorough Inspection.

The Vehicle needs to have all=the systems checked to be function properly as the machine is brought back=to running condition, along with checking the Brakes and Calipers to be fu=ctioning properly.

The Quadski also requires a D=aler Diagnostic program to re-set the Servicing Codes – If n=t Cleared and re-set the Warning ICONs will activate and eventually the bu=zer will come on!

We have all of the Diagnostic=equipment at the shop – along with extra parts necessary for repai=s -

Using The proper Oil is critical to the Clutch on the Engine – we have the Oil and filter here in stock!

It is very important to check the Differential and PTO Lubricants along with checking the condition of the seals – To do this the Machine needs to have the Fenders and Top Deck removed and with the vehicle at our shop we will have all of the specialty tools here to handle any problems we may encounter.

Other considerations are the gas and Oils will need to be disposed of, we have accommodations here for that.

Once repairs have been made I will also Land and Water Test the Vehicle to make sure all the systems are operating properly, I have a trailer for transporting the vehicles!

Thank You

Bart Boroos
