It's ok, we don't have to agree, let's proceed

I'm not a fool and I am smarter than you give me credit for

I've supported myself in a very aggressive city for a decade and a half

You engaging now feels like small blessing and I have no stakes on anything other than choosing or not, to accept this alliance of generosity which feels appropriate and for which I am certainly grateful

If the real world means buying into the matrix, nope I'm not interested I trust my ability to synergize my life in a way that suits my highest good now

I have successfully scaled a very stressful period and managed to keep all my high level relationships in more than good order

What is in need of being properly considered is how I can stabilize the risk factors so I am on secure ground

I will let you know about the ticket

I make no claims on your independence, you are a free soul, you are head strong, but I accept it. without agreeing at all. You prefer not to live in the real world, ok with me. you prefer not to deal with the practical issues. ok with me, but I want to be crystal clear. I am against it 100 percent as I am against putting you in harm's way, you don't take advice from me or anyone else. I accept that. we are not doing this together, we had the same discussion about your first book with that woman I said was a cheat. you said I was being harsh and refused to see. I said ok, you will have to learn the hard way, I then bought some of the books to help and as was easily predicted she behaved badly. I suggest you find an outlet for your energy, I've said the same for 20 years and each time you tell me it will take too much time / I wish you only good
