**Subject:** Fwd: Closer To Truth/Breakthroughs interview - meeting

So =regory Chaitin can meet on Saturday afternoon, but.... as you =ee, he wants to bring his wife and baby (they all came from Brazil). =lease advise.

How about I come over a little earlier, so we can solve =nbsp;the problems of the world?

Sure Robert, could leave the Holiday Inn =tarting at 3 in the afternoon on Saturday. Since this is = social occasion, perhaps you might care to also invite my wife, whose field is epistemology and who has collaborated =ith me

In a number of research projects =s well as in our Amazon prime documentary Against =ethod by Karol Jalochowski. In that case our 18 month old toddler would also come; we have a car seat and a =ortable stroller. Please let me know what you =hink.

Best,  
Greg

Hi Greg:

We are looking forward to our on-camera =iscussions on Sunday, April 7 (just prior, I will send you a brief list =f topics we will cover).

I write now because the funder of Closer To Truth's =reakthrough series would like to meet you - he is an international =inancier who began his career as a mathematician and loves =/i>mathematics. Could you meet sometime on Saturday, April 6, in =anhattan? When would be convenient? We would arrange a car to pick you =p and

take you back - it'd be an informal meeting, simply an exchange of ideas, last about an hour. Peter and I would attend with you.

Safe travels and best regards,

Robert
