hope Europe was nice and welcome back wherever you ar=

my trivial financial question was

i have 750,000 right not, i am spending 70,000/year

after 8 years—when i am 86 years old—i will have 20=,000 left

do you agree that market growth over th=s period would roughly double the value of my money, so i would in fact ha=e 400,000 to survive the final years

would be gra=eful for your answer

all best

glad we have internet in rural Jamaica
