<=iv dir="auto">Hi Stephanie,

Yes indeed. The oil room h=s always been top of my priority list of things to be done. The guys and I a=e reluctant to work on this area today once we are finished with the Flag P=le Pump Room today.

I spoke to Mike about this the end of last w=ek when Cashkim pointed it out. One of the barrels of used oil is slowly leaking and going through a crack i= the floor into the room below.

Engineering guys agreed l=st week to assist the cleaning guys when they are ready to move the barrels=above this room so they can clean this room. As soon as the barrels are mov=d, the oil leak will be remedied. Cash, please make this a priority.

<=iv>

I will work with Mike to schedule the barge to get this l=aking barrel addressed and all the used oil carried off the island.

Thank you.
