Hi Stephanie,

Yes indee=. The oil room has always been top of my priority list of things to be don=. The guys and I are reluctant to work on this area today once we are fini=hed with the Flag Pole Pump Room today.

I spoke to Mike ab=ut this the end of last week when Cashkim pointed it out. One of the barrels of used oil is slowly leaking and going through a crack =n the floor into the room below.

Engineering guys agree= last week to assist the cleaning guys when they are ready to move the bar=els above this room so they can clean this room. As soon as the barrels ar= moved, the oil leak will be remedied. Cash, please make this a priority.<=div>

I will work with Mike to schedule the barge to get=this leaking barrel addressed and all the used oil carried off the island.=br>

Thank you.
