1—I will not be seeing you soon in NYC—Hun=er was a debacle—they were going to pay me an Adjunct Professor<sup>L</sup>=;s salary of \$5500—such an organism is typically someone who has j=st gotten their PhD or is about to—god Almighty i would lose \$20,0=0/4 months to work for them

2—here is a market =uestion for you, i have 750 grand—if i spend 300/day as i roughly =o—after years i will be down to 250—can i assume that it w=ll have grown to 500 ?

3—BTW i did have t=e good sense to buy 4 acres in 2007 off my Crafoord Prize for \$70,000◆=80◆it is now worth \$250,000—and doubles in value every 6-7 years=E2◆◆has nothing to do with the stock market—entirely due to ex=ernal pressures—returning residents who need to buy land—a=d far more important my land gives view at 1800 feet down to the ocean◆=80◆indeed my land is part of the original Southfield Plantation

i don't cut trees i plant trees, so my land doubles re=ardless—problem is i would rather cut off part of an arm than sell=any of it !

would love to talk to you later
