Cables are moving just got rebu=tal document from ACE so we are almost there. USACE discussed not in=luding your cable because regulatory aren't happy with Mr Pempek's=settling of case.

But their legal said cable is under WAPA not GSJ so it can move ahe=d.

Docks are ano=her issue, USACE in San Juan was alerted about the ramp going in across fr=m LSJ, and alerted enforcement and now Jonathon is reviewing the recent sa=ellite photographs. He would like to have a call next week to figure=out a resolution. I already told him we are getting proper turbidity barri=rs and will be taking it out.

The dock will be held up until we can make both USACE a=d CZM happy. Have we heard back from CZM?

He'll be calling me Monday about when he want= to talk.
