Jeffrey please I need your directions, I=cannot continue to follow a path like this on my own. I miss your advices,=I miss your voice... I miss everything. I don't understand why we cann=t talk anymore. This situation really makes me feel sad. It affects my dai=y life and my actions followed by total nonsense.

Paris makes me extremely sensitive because every=here I walk reminds me of you. This feeling doesn't go away. I don'=t know how to deal with it and what to do about it. Earning money is pract=cal but doesn't bring me any happiness. I miss spending time with you =nd doing things for you.
