Hi Jeffrey – we have been working on it. We first looked into the question of whether the security interest would require legislative authorization or whether the private placement could fit within the statutory authorization passed by the Legislature last year. Based on our preliminary review it appears likely that it would. Not sure how this would affect the proposal or the timing. I expect communication and guidance from Government House this week may be difficult. I hope the hurricane takes a sudden turn far to the north, but we are on stand-by to help in any way that we can. – Peter
