great talking to you

i certainly agree =n the interest side—and therefore the commercial side—far =etter LGBTQ than Honour killing—the latter i will complete in my s=are time on behalf of the victims

but have already= started work on LGBTQ—a friend told me yesterday that while male =omosexuals are 3%, male -> female trans are 1/10th as frequent—=f course there is overlap, exactly why all five letters should be handled =n one piece

there is also a literature on lesbian=gulls and homosexual behaviour—male and female—in other an=mals, plus as i mentioned to you once, well-developed trans species in mam=als—the art will be in weaving a bit of the non-human material wit=out boring people who want to hear about us!

all =est
