Subject: Re:

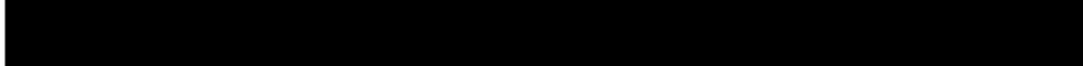

great help. as you see if the carry on c=sions were made wider you pick up 3 -4 inches. if the bottom c=shion is stiff. as you see in the second photo it hangs over the div=n base. . you and I can discuss at your leisure =A0 but these photos are great . the arms should b= higher and rounded as arms . right now , not nice to lean on.=C2 the other trickier is can we make it so that the back is OVER =he drink rail . as you can see that edge is award as it revealas the velcr= and underside.? if the arms are rounded at least on the divan=side and foamed it would look welcoming. . a= you can see from the photos the cushions and welting make it old looking =ay one as the edges are wobbly and angled
