Chuck,

Please revise proposal:

We will have one (1) each TC6000 touchscreen in each of the four (4) divan arm rests.

The two (2) each "center positions" on the two divans (4 total) will be the significantly lower cost remote headset jacks as you depicted below.

Please provide pricing for one (1) each dual USB outlets like we did on G550 sn 5015 (Panda) so that I can find out "if" and "how many" they may want.

Best Regards,

Eric

Eric,

We did 4 for each Divan for a total of 14 TC-6000's shown below. Dis-regard center divan seat 12 TC which is labeled TC16. That's the way Rockwell labeled it in their software. We can do 16 TC's on 5091, one for every seat, or just install 1 TC at each FWD/AFT divan armrest that control both reading lights and personal audio for both seats and do remote audio jacks for the center 2 seats. Remote jack is pictured also below. That picture was from Prince's personal jet.

Remote Headset Jack

Chuck,

I am flying to California this weekend and will obtain copies of the electrical prints I know you will require.

Crew rest and touch screen just like sn 5015. One ea. TC-6000 at each cabin seat. How many TC-6000's did we have for each divan on sn 5015? (3? Of 4?).

Best Regards,

Eric

Eric

Do you have the Gulfstream 416/569/502 drawings that you can forward to help with Venue quoting.  
Also do you have an idea of how many TC-6000's you want and if the Crew rest will get a touch screen like 5015. Thanks!
