**Subject:** G550 Wood / WiFi / Cowls

Jeffery  
Spoke with Rusty at length this morn.

1-I have coordinated with Kathleen at Rolls Royce our exchange Engine cowls t= be installed before Paint at No Charge. Since Corporate Care covers labor a=d exchange cowls.

2-if you elect wood, additional 6 to 8 weeks added to Paint completion. Wood=veneer LOG would have to be selected asap, needs to be approved and availab=e,. Heather informs Gulfstream has never installed Pear Wood, due to its ea=ily Bruised during finishing process, and requires 8 weeks of testing for q=ality and durability for Quality Assurance from Gulfstream. (6 to 8 week le=d time). If you select Pear wood.

3- \$689k installed price for KA High Speed SatWIFI will be certified and ava=lable for G550 Oct 1st,. The first G550 is in SAV getting installation comp=eted. Average Monthly cost for DATA packages range \$6k to \$8k per month. L=ng wait list for KA Wifi install,,, Rusty thinks its a 50/50 we can accompl=sh during paint.  
Stand alone install downtime 4 weeks.,

3-final paint color needs to be approved,. The "Rich Blue" color sample shou=d arrive Fedex to 71st tomorrow for your inspection, along with Dark eucaly=tus wood sample and possible others wood veneers.

4- XM weather on DU tubes in G550, price later today.

4-Rusty recommends install of Xm weather and or KA band at our next maintena=ce event next year, November and December are low man power months to get p=ojects accomplished in a timely manor, with Thanksgiving and Xmas, Savanah I=oses their work force due to holidays taken, skeleton crews working those w=eks.

Thx  
Larry
