I sent the revised on-line diagram, revised switch specs, and new step up transformer specs to APA for approval. I have also had a conversation with, and sent the one-line drawing to, Jim Bourgoïn of Russ Electric. Russ Electric is the company that did the switchgear on LSJ.

I expect WAPA to provide me with the approval shortly. Once approval is granted we can then source the switch via bids or direct request for quotations.

I expect to have a call with the team from Russ Electric shortly to firm up plans to add the breaker needed to run the feed to GSJ.

any update on switch bid for so that generators can run between GSJ and LSJ
is anything else open?
please advise
thanks
