you are both thanked on the first s=ide

Jeffrey has supported this work throughout♦=80♦it doesn't take much money to keep me going—but low cost = obtaining it and regularity are key

and Gordon,=God bless you for help launching the sainted Biosocial Research Foundation=/div>

into it flows as much of my income as i can stuff=E2♦♦all book royalties, speaker's fees, gifts from myself and othe=s— i think we all share a respect for Uncle Sam and no particular d=sire to support his activities

i think this Honou= Killing work is a major intellectual achievement and i will get it out to=at least 200,000 directly on the internet and then through the press♦=94i have a piece underway in Poland and may pursue the likes of Huffington=Post, LA Times, and Slate here; i have little interest in producing academ=c papers except as a co-author but a short book is a virtual certainty

all best
