<http://www.yumanity.com/integrated-discovery-platforms/>

I'd do something similar to their vision.

They are super cozy and not doing much that is unique compared to a handful of other companies.

From my technical experience and domain knowledge - and basically stealing=from how plants manage disease would be sort of like this

1. Platform 1 : endoneuronal biotherapeutics (might not all be drugs, I think= mitochondrial transfer is genius)
2. Platform 2: endovascular drug (intra arterial reformulation of existing I= meds) and biotherapeutics (optogenetics etc)
3. For: diseases causes by oxidative stress (degenerative, malignant or infl=mmatory)
4. With: geoff Ling former darpa md phd in neuropharmacology - and then would= Find scientific cofounders like this guy did
