For GSJ ?  
Believe there could be permit issue  
Someone will need to check with Amy  
Outside of that  
Need to confirm how much water they are using a day, place water meter on main feed line  
Last conversation they estimated 5000 GPD mainly irrigation  
My recommendation would be to get a 5000 GPD RO and new bigger Generator to replace screwed up unit and  
place somewhere out of JE sight and ears
