Subject: Re: Introduction

Greetings, Yael -

I'm so sorry to have missed this email - almost a year ago now! I was searching my Levitin emails for a manuscript invitation/guidelines Dan sent and am so glad I found this - I JUST had a conversation with a colleague in the Center for Music=Innovation about this very topic! Imagine if you are admitted to the Ambul=tory SurgiCenter for an epidural injection for intractable Sciatica and thinking it meant a virtual trip to Tahiti instead of days of high anxiety waiting to be called for the puncture?!

I would love=to get together and talk if you might still be interested. In general, I'm on the UCLA campus most Wednesdays and some Thursdays. Perhaps a lunch =r tea at the Faculty Club one afternoon?

Cheers,<div>

Hi Daniel,

Thanks so much for the intro!

Hi Mark,

Great to e-meet you an= sorry for the delay in answering. It seems the Jewish holidays (and=guests) made for a very fast few weeks! I would love to meet for a c=ffee and learn about your work.

How does next wee= work for you?

Thanks!!

Yael

Mark,

I'm writing to introduce you to Yael Swerdlow=who is doing some interesting work in using music for health and wellness.=I thought you might both profit from knowing about one another's w=rk.

Daniel

Hi Daniel,

My pleasure! I enjoyed it very much. I've just purc=aed your book on music and look forward to diving in.

You mentioned introducing me to the music research=group at UCLA. That would be terrific: my company, Maestro SPC= is developing an interactive Virtual Reality platform of conducting the o=chestra - primarily for use in the education and health and wellness space=

We are keen to partner with neurosc=ence programs involved in both classical music and Virtual Reality therapy=

Looking forward to your thou=hts,

Be well,

Yael
