The dock permits have been previously submitted so they are= completely ready and we need to ask CZM if we even need to resubmit them s=nce they should already have the signed application forms, plans and EARS =unless they gave them back to Erika's office).

On that note the lett=r I wrote to ACE has been accepted and they are going to move forward with=our dock permit! So we are back moving on that one and should hear f=om them anytime if they need any additional information. Johann did =hreaten that they may want us to include the upland construction as part o= the application because of the salt ponds and the tree boa.

On the cabl=s we went ahead and swung it over to where you are showing it on the map i= the master permit, it has a little more seagrass impact but puts it farth=r from corals. It makes no difference in cable length.

CZM a=d COE both said that they would like to see us drop the extra leg we were =howing GSJ to LSJ, which I was only showing as a give away anyway so that =ave us something to give up. I stated last quarter of 2017 for insta=lation on the application.

=/div>

Richard CZM as if we could get =omething in writing from owner of the islands (LSJ and GSJ) approving the =anding of the cables. Can you get me a simple letter? I'll=send you an example in a moment.
