**Subject:** Re: Flight Time from Bedford to Paris

The Real Time Flight Plan from Teterboro to Paris is running at 6:17. The average wind component is a 55 knot tailwind. The average wind direction and speed is 275 degrees at 66 knots. We gained an extra 21 knots of tailwind over the previous flight plan departing from Bedford.

The current weather at Paris is:

Clouds: Scattered Clouds at 2000 feet; Broken Clouds at 3400 feet; Towering Cumulus Clouds; Temporary Rain Showers  
Broken Clouds at 1100 feet  
Temperature: 64 degrees Fahrenheit
