Jeffrey,  
Current Bed in G550 is close to Twin XL.  
Appears a Full Size bed measures  
54"x75" I think that would be a close fit to your G550 Bed once completed,, However Full Size Bed sheets aren't  
manufactured with cotton High Thread count, best I've seen is 500 to 800 thread count.

Queen / King size bedding I've seen at 1800 thread count.

Maybe Karyna could purchase queen size proper bedding that you prefer (fitted sheet, -Duvet -flat sheets) And Eric's  
seamstress could alter this bedding to fit the G550 bed for proper fit.

If you like?

Thx  
Larry
