Richard,

As noted, I rec=gnize the original number from the original breakdown of 4/25/17 and I bel=eve we may have made a mistake then. This number was changed in all following revisions.

There have been so many changes in this proposal including changes to this particular code item
420.

I believe there may have been a mistake in the original break out number we provided.

As you can see below, after initially discounting the cost per seat from Rev 2 to Rev 3, I have held the cost per seat consistent- inclusive of all changes.

This aside, Jeffrey makes continuous changes, so we are always shooting at a moving target.

Subject: seat prices

In reviewing last few versions of bid i noticed=that the seat prices keep changing in Main Cabin

Original quote had 8 seats in the main cabin area for \$116,800 which is \$14,600 per seat

Latest quote dated 5-19-2017 now has 8 seats for \$122,106 which is \$15,263.25 per seat

I am not sure what caused this price increase as I know JEE originally talked about suede and or cashmere

Now I understand current path is leather (2006 =entley color) which i understand to less expensive than previous two choic=

Please advise

Thank you
