To: Steve Bannon <[REDACTED]>

my explanation for =y Italian friends of crypto currencies. There is a masquerade ball. al= the participants can watch and count as a person in a distinct costume gets a kiss from=someone else. . Everyone is a witness to the kiss =C2♦ when asked . each person can say the person in that particular=costume ie got a to=al of a know number of kisses, . there is a video taken =f the ball and everyone in it . = kiss is like a bitcoin .=C2♦ it doesn't really exist as a "thing" , but=everyone in the room can verify how many you have gotten. . ♦=A0 The video of the event is the" open ledger." everyone c=n download a copy of it for review in case of false claims. no one =nows who is actually under each costume . (crypto). all the videos of each even= strung together by precise date and time (the blockchain .). A kiss has=value that can be exchanged for other things . :)
