hope things are well. . when are you back. ♦=A0 . I would love to do something with you , but sleep i= not going to be it. . I have read quite alot and frankly , th= subject is fascinating but i see no real insights. just more =uestions and mostly the same ones that have been asked for years. ♦=A0 . yes, its role in many processes are now becoming ap=arent. but I see no theories that can hold their own ( yet ).
