**Subject:** Re: GSJ Water

It only makes 150gal. an hour. </=iv>

All the new plants especially your 15k fi=us order and all the plants around the main compound will all die if we don=t irrigate

The main seal on the water maker keep blowing out because it's o=er worked. Chris said that it's not designed to run as often as we run it.&=bsp;

The water truck ordered today is going to be \$500.00 plus \$20 port fe=: \$520.00

I do apologize for not letting you know but you= in residence and I can't afford to run out of water on GSJ.

=/div>

We need to revisit purchasing a new water maker for GSJ. It's jus= not working, were using more water than it can make

</=iv>

The solar energy is going down fast because Chris have to run the w=ter maker at night to keep up with the irrigation and the reason the genera=or went down was also due to us trying to make water at night for the next d=y

If we had a water truck of our own we coul= probably just run water back-and-forth in situations like this. We have a l=tte water wagon that we use to water plants on GSJ but it's still not enou=h
