**Subject:** Re:

There are three similar plant and human cells that are neu=oid and really interesting

--- Geotropism helps plant stand straig=t up and sense gravity - I think cells there like alpha motor neuron (and =hey get ALS)

--- photomechanical ones that help plants coordinate m=ve and track sunlight are like our motor and basal ganglia cells (and even=have intrinsic oscillations like Our basal ganglia) and I think they ge= Parkinson dz

--- cognition and spatial ones are the root zones th=t are like hippocampal cells and they get Alzheimer

All three are p=otein aggregate dz in response to a stressor In plants and I think I kn=w the mechanism in humans

Will need to do experiments w plants to b= sure but I think it could be revolutionary bc guess what plants solve the= all In the same few ways
