Subject: Re: Smart Sheet

what does by next week mean? i would like date=.

FYI

I think you will be ver= pleased with the Smart Sheet software we are testing currently for punch =ists and project updates.

=span style="font-size:11.0pt">

It is very identical to Microsoft Projects but with the big a=vantage of running equally well on Windows, MAC and iPhone/iPad. Overview =an be printed on one page and if you install the Smart Sheet app, you will=always have a fully updated punch list on your phone or iPad. As soon as w= update, it automatically updates on all platforms. The overview screen lo=ks like MS Project with colored progress bars as requested.<=span>

=C2

The system should be fully updated with all current projects and punch=list items for all properties added by next week.

=p class="MsoNormal">

Best,</=pan>
