Subject: Call...

Jeffrey,

We will go ahead and prepare a new concept superimposing the Chateau l' Hoizo on GSJ, approximately where the existing house is, going from approx elevation 22' to 60', proposing a three story complex.

=div>

I know you instructed me to cancel the trip but as you know we have incurred in some travel expenses already and have confirmed flights and hotel for 4 people of my team.

Do you prefer we go ahead and cancel until further notice or perhaps it's better that we still go and make this presentation working physically from the island? Please let me know your preference.

general concept of the Master Plan without going into details now, we will be able to define the project soon.

Once we are in agreement with the overall location, views, shape, look and size of all the buildings, then we can move on to the next stage: "Schematic Design" where we will detail every aspect of the architecture as well as the interior spaces, doors, windows, functionality, etc.

<=iv>

Best regards,

Ramon Alonso<=font>
