**Subject:** Re: grant good news!

Thanks Peter. Hi to Jeffrey, finally. Many thanks for all your help and patience, of course. As discussed earlier, due to various institute's overheads, the amount now available for doing the actual experiment at Goldsmiths has been substantially reduced. Is there any possibility of extending the amount of support to ensure the experimental rigor and quality of the data collection without any compromise? Also do note that we should provide some funds for Ernesto so that he is also supported to make necessary travels for meeting with us as well as for possible dissemination.

Best  
Joy

ps. Do note that Ernesto is a Professor in the Department of Bioengineering and an expert on neural data analysis.

Prof. Joydeep Bhattacharya FRSA, APS Fellow Head, Brain & Cognition Cluster Director, EEG Laboratory Department of Psychology Goldsmiths, University of London [REDACTED]

Subject: grant good news!

Professor Ernesto Pereda of the Physics Department of La Laguna University (ULL) a well established Spanish University has agreed to host the money and administer it, taking 20%, and sending it to Goldsmith's who will also take 20%. If you agree, a total amount of 98,000 Euros (105K dollars) would be split this way.  
ULL 19.6K Euros to handle grant.

Goldsmiths 47K Euros (37.6 K Euros for Dr. Batacharya Dr. Andreas Ioannides 27.4K Euros Myself 4K Euros

Skype Sunday any good?  
Peter
