Subject: Re: LSJ: Generators

not good, who is supposed to be in charge of this

On Fri, Ma= 31, 2017 at 9:15 PM, Ann Rodriguez [REDACTED] <=span> wrote:

Hi all,

Tap checked LSJ generators upon Smiley's request due to a battery probl=m. Tap found low battery, blown fuse, bad filters and a coolant leak. He c=anged the batteries and the blown fuse but the filters all have to be orde=ed. We will continue to have delays with the switchover when WAPA goes dow= until those filters are changed due to bad air flow.

I just spoke with Jock "the Deisel Man" in Subbase. I asked if he=could come out to take a look at our Generators to see if he can do mainte=ance or setup a maintenance contract with us. I've been trying to get =ock to work with us for years but he's always been busy during our tim= of need. I finally got him to agree to come out Wednesday at 9am

Apparently, Jock "the Diesel man" is well known for working on Cr=ise ship engines, Barges, Fuel trucks and all Diesel generators. He comes =ighly recommend by Mr. Fiola (Tri Island), Gene Sr. (SBDD) and St. Thomas =as

In the mean time I'll see if Lucas can find all the filters needed for =he Generators and have them sent to us asap

Ann R.
