I don't think I'm being cle=r.

Mr. Epstein gave Amy a suggestion for a new lan=ing. She was to investigate, after determining its viability she is to take=me and WAPA to see the new landing so we can adjust the distances. The weat=er has been windy with rough seas that delayed her access. I have not seen n=r do I have any information on the new landing at this time. I have been pa=iently waiting even though a portion of my pay has been withheld until this=is completed.

Mr. Kahn,

I am still waiting to be notified of an availab=e time to view the new landing. My understanding is that it is being coordi=ated with WAPA so that only one trip is necessary.

is amy email correct that we just need land stuff for you to finish off and WAPA?
if so what was path that you both determined works?
please advise
thank you

We are going to Tortola with WAPA this week to finalize their landing site. GSJ stuff is ready except for land stuff which Hugo needs to finish off, now WAPA is the critical path and we are moving on that, we have just been slowed down by the awful seas which have prevailed the last month.
