Subject: LSJ RO Plant Service

Jeffrey

As perviously indicated, by the end of the week we will have everything on island to perform the Membrane and other services on the RO Plant.

I can have Technician from LSJ PM Wednesday the 15th to start performing the service on the RO Plant. It will not be Patrick, but it will be his head guy from his Anguilla office, Jamaal.

Patrick assures me Jamaal is up to the task.

This service is expected to take 2-3 days to perform.

At the same time I will have the PLC wiped of its existing program and reinstated.

A new laptop will be installed, C2 with a solid remote access connection and a copy of the existing Control program as a back up.

Cost:

Flight: \$350.00

Labor: \$500.00 Cash

Accommodation. Jamaal will stay with a Family member.

I will need to be on site for this service, and would plan to arrive Tuesday night.

./div>

Do we have your approval to proceed

Regards Brice
