Jeffrey,

=span style="font-size:11.0pt;font-family:"Calibri","sans-s=rif";color:#1f497d">Attached is the site plan that incorporates the ne= topographic information. It also shows a slight revision in the bathroom o= the south side based upon our recent discussions. The bathroom will be at t=e same level as the pool deck and we have pushed it back to reduce the heig=t of the base wall. The tallest wall we have now is 14 feet. We have moved t=e entire building further west to accomplish this. Our design approach is t= have the building sit on an elevated platform similar to a temple. The exi=ting sculpture on the eastern end will be incorporated into the platform as=well as two other potential sculpture sites lining up with the palms. We ha=e also looked at the possibility incorporating some large urns at those loc=tions in lieu of sculptures. On the western side, we have developed two pla=ting areas with palms and shrubs to screen the pool visibly from the main p=rt of the house. This will require us having to remove the existing stone s=at. The eastern side will include a 12 feet wide terrace facing St. John. I=feel we now have a solution that successfully merges the formality of the e=isting courtyard and pool area within the confines of the existing topograp=y.
