Jeffrey,

Attached is the site plan that incorporates the new t=opographic information. It also shows a slight revision in the bathroom on =he south side based upon our recent discussions. The bathroom will be at t=e same level as the pool deck and we have pushed it back to reduce the hei=ht of the base wall. The tallest wall we have now is 14 feet. We have move= the entire building further west to accomplish this. Our design approach =s to have the building sit on an elevated platform similar to a temple. Th= existing sculpture on the eastern end will be incorporated into the platf=rm as well as two other potential sculpture sites lining up with the palms= We have also looked at the possibility incorporating some large urns at t=ose locations in lieu of sculptures. On the western side, we have develope= two planting areas with palms and shrubs to screen the pool visibly from =he main part of the house. This will require us having to remove the exist=ng stone seat. The eastern side will include a 12 feet wide terrace facing=St. John. I feel we now have a solution that successfully merges the forma=ity of the existing courtyard and pool area within the confines of the exi=ting topography.
