No, based on the fact you have never required on= before, your water was fine
You have to get the RO post treatment calibrated
Sorry misunderstanding I=was under the impression that you requested a Water Softener

Regarding the =roposed Water Softener

1. The Ranch is replacing proposed fleck
units with the below model
Kinteico CP216 Duplex Softener

Control heads on the Fleck model where prone to failure =/div>

2= Someone will need to check with DPNR regarding discharge of Brine, could =e a permitting
issue

Or install some whe=e they won't see system during site visits

3 Danny will need to install variable speed drives on the main distribution pumps otherwise the
continue= water hammering that is occurring will dramatically shorten Softener cont=ols

4. Why hasn't Danny switched Master bedroom and main compound over to cistern water
You had this system and cistern refurbished for back up just in case this type of event happened.
All the cisterns were cleaned out prior to my departure 2013
