Hi Jeffrey,

There is nothing more in the design world that it could make us happier than to achieve the "Design" of your Island some. I'm saying this for many reasons asides from seeing that it is a great opportunity for us all.

Having said that, the main point I get from all the effort this Month and a half (since 20 of January 2017) is that:

If we want to achieve this in record time, we need to be interacting face to face more. somehow in each of the presentations we have done, there was no real opportunity to make the interesting and important points, so therefore I feel an opportunity was lost.

Jeffrey If you see any further added value in us, or if you feel it's worth your while to continue let us know.

Either way, we would like to take the opportunity to ask that (in the event you want to continue) we will need to agree on a proposal an retainer to make it things more professional.

By now you know that:

I will be more than happy to keep assisting you in defining the design outcome, but on the other hand, you need to let me know how you would like to proceed.

Jeffrey I personally had a lot of fun working with you on trying to decipher this design conundrum.

I have to admit it almost looks imposable, but we =now it's definitely doable.

Please call me or let me know.

Regards

Eduardo
