Good sea trial,. 44kts / 50mph!

Small to do list:

- need larger Circuit breaker for AC unit,, easy fix., -install O2 sensors for engines due to arrive Tuesday,, -I'll send photos in 2 hours for bolster seat location,,
2 for front cabin

The other 2 I was planning behind driver,, however, we have 2 floor hatches to access generator where I was planning to locate the aft seats, I'll send photos when I get back to dock,,
