Jeffrey,

I want to make the Nautica perfect before shipping,.since we are in FLL wit= access to the best Maintenance.,  
We installed the New AC unit which works great, a lot of cold air with good=volume of air movement.,

I'm struggling the with Generator,. At some point there was water intru=ion when Ed owned the boat,. There is  
a water line on the Windings that pr=duce the 220VAC,,, also, the generator is surging when Ethanol fuel is us=d,,  
causing Voltage to spike from 220VAC to 280VAC,,, we blew the compute= board on the New AC unit,. I was able to  
exchange via warrenty.,

The current Generator is carbureted,. And has a Bearing noise as well I'=m concerned about.

Option 1,

Overhaul and rewind the coil for voltage and install new carburetor.,  
Estimate \$1800 to \$2600.

Option 2

New 2017 Generator with fuel injection system and upgraded fuel pumps.,  
List price \$9800,. Boat show price \$9100,  
Runs on all unLeaded fuel,. Even ethanol fuel additive.,  
Our best price \$8900 with Free installation with trade in of our old Genera=or.,

Pls advise if you want repair, or New Gen?

Thx  
Larry
