Jeffrey  
(Paris to LSJ 8+45min @ Mach .78)

Flight time from Paris to LSJ is running 8+25min (-16kt headwind) at Mach .8=

I'm planning to slow to .78 Mach in order to get 8+30min hang time in order to land in STT with good fuel reserves, I will depart Paris Full fuel 29,000lbs,,(the 550 holds 41,500lbs of fuel, f=i).  
G550 would run this route at .85Mach with a flight time of 7+55min.  
We will run at .78 Mach with at flight time estimate of 8+45min.

Just showing some time comparison, if this matters?

Thx  
Larry
