**Subject:** Flight plan

Jeffrey

I've requested Flight Planning to run a real flight time from Straus to NY.=I should have in an hour. Both at Mach .80 and LRC Long Range Cruise Mach .78 In the mean time; My estimate shows Strasbourg to Teterboro running at Mach .80 is 8+38min. I= i run at .78 Mach, I'd be approx 8+50min+ I'll have better fuel reserves when i land if i fly at .78 or less, Since o=r plane is a real 9 hour hang time plane, with 10:06min till flame out, acc=rding to my flight plans.

The 8 hour + flights really matter if you fly Mach .80 or .78 for the fuel b=rn and fuel remaining after landing.

We could land Newark for customs if you elect to arrive after 11:30pm since T=terboro closes at midnight,
