Subject: Re: Airshow APP upgrade

Jeffrey

I'll confirm thes= numbers with Jeff Shaw, Eric's Avionics installer based in New Ham=shire ,, this was his estimate back in June 2017,, For airshow ap= was $22,605 Thx Larry

=80 ——--

Here are the numbers:

AiR Show App = $22,605

&nbs=;   T=e Shades control at the VIP seat requires a new switch panel which will nee= plating and installation from Eric's guys.

We will also have $12K roughly in travel if we do either t=e Wifi control and or the Shades. Probably half of that for the AS app if d=ne by itself.

&=bsp;

</=>

Best regards,</=>

Jeffrey Shaw

Jeffrey
Attached is the quote we received from Rusty last year when we asked about A=rshow to IPad App
1-Airshow Displayed on IPAD $28k
2- replace Pronto Remote, utilizing IPAD control $79k
See attached
I'll call Rusty and confirm if there are other options

Thx
Larryv
