Subject: Re: Jiyo - Android Apps on Google Play

any number rasied to the power of 1 , equals th=t exact number . ex 2 to the power of 1 = 2 =A0 , 3 to the power of 1 = 3/ =C2 / however zero to the power of 1 . cannot be=1. . it would be zero. . HOWEVER=C2 every number raised to the power of zero . equals=C2 1 // but the zero raised t= the zero power. CANNOT be 1. . so it is INDETERMI=ED. a good metaphor for existence. =A0 its before the individual . (power of 1). and not explain=ble in even mathematics it is indeterminate

=A0AI is Artificial Intelligence which really means=C2 ANSWERS . AI raised to the minus one (=C2 the inverse). is where the meat really lies. . =A0 better questions . .
