Subject: Prebuy

Jeffrey

Just a thought,..may not be worth the risk,.

However, after viewing Chevron's hanger and meeting their Mx personnel, I wa= so impressed with the operation, there is minimal doubt, this G550 is in p=rfect operational standing,.. Taking into account, they completed a 96month a= LongBeach in March 2016,.

If its not to late,.. Maybe offer \$15.8M quick sale price.

simple prebuy could save us \$300k

I figure we will spend \$100k for prebuy, add that with Price reduction of \$2=0k to \$15.8M, maybe Chevron would be interest in quick closing to get the p=ane off their books.

I'd have LongBeach accomplish this work scope:

-thorough Log book research

-Borescope both engines, and "APU".

-Factory Test flight for system operations.

-check all cabin furnishing for proper ops. Seats, Galley, Vacumn flush lav e=c., -check Brakes for life remaining.

Thx

larry
