**Subject:** Boat logs/statistics

Hi Anna,

I need your help please.

I got the latest boat logs, and despite your attempts at teaching Carlos how=to fill them out, they are still pretty much useless.

Randy seems to get it. His logs are mostly filled out correctly, but most of=Carlos's are missing vital information.

Will you please try one more time to let him know that I need the following i= order to present JEE with correct usage statistics:

\*Boat engine hours recorded every day before first trip of the day

\*Every fuel purchase. Cost and quantity

\*Every trip recorded. Number of pax, destination, time of day and reason for=trip.

Hopefully this time we can get it right. So far it has been a waste of every=ne's time. Maybe it would be beneficial if captains gives you the previous d=ys log when they see you each morning, so you can confirm that they are fil=ed out correctly?

Thanks for your help

John
