L=rry,

As we discussed, Chevron flight ops h=s an extremely busy day with a very early start on Monday. Consequently the= will be shutting down and the last person will be leaving the facility and=locking the door at 4:30 pacific on Monday afternoon. They tried, but can't=extend the day Monday. Tuesday, however, they are wide open and can best su=port your visit with pilots and the crew chief helping you. You can start a= early as 6am Tuesday and anytime after that you would like to. Sorry we ca='t accommodate you Monday. Hopefully Tuesday works. Please confirm. Thanks.=Josh
