**Subject:** PBI Mosquito Products & Spraying

Island Environmental sprayed today

They explained that they do not use a FOG application process They do a ornamental service with Essentria and Demand EZ I was told that it is impossible to get rid of mosquitos but spraying every 2 weeks is recommended as Mosquitos have a 10-14 day cycle Mosquitos breed in water sitting in pots or puddles which we will try to avoid..

Please let me know if it was successful on your next visit Thank you

Hi Richard,

In follow up to our conversation yesterday, the products we use for mosquito control is Essentria and Demand-EZ. If you have any other questions, please let us know.

Thank you,  
Jennifer
