I understand,
I'll offer our GIV p=us \$5M for their GV now.,

Our GIV is a 1988 with 9,500 hours and 4300 land=ngs,.
Next major inspection is out 72mo=th due in 2018 and dual engine overhaul shop visit:
, Engine overhaul is free per Corporate Care.
I budget \$500k for the 72 month,
At 5000 Landings there is a major tail / inspection due,, almos= all GIV aircrafts find cracks, and require repairs in this area,. I have t= check if GV's are effected., Cost is \$=75k We due approx 130 landings a y=ar,. So 5000 landings is several years away for us.

I'll check with S=san,. I think their plane is clean since they completed 192 month inspectio=,, restarts the inspection clock.,

Great idea about swapping seats and div=n,, Not sure if GV is a 16G seat requir=ment??

I have not mention the \$=M plus our plane yet,. Waiting for her to respond with Trade Value of the G=V.,

Larry,
I found a picture of the crew lavatory after we redid=the plating but before the leather was replaced. It will show wear fr=m storage of bags but that leather has now been replaced. The old pic=ure is attached.

I have also attached a picture of the cockpit (high and low=resolution so you can zoom in). We redid the crew seats as part of the interior work so the chairs have new sheepskin and the plating was redone for the drink holders. It is hard to see in the picture but the aircraft does have HUD.

I will ask our DOM if he has any pictures of the crew galley and flight attendant jumpseat and a more recent picture of the crew lav. =

Feel free to contact me anytime over the holidays if you have any further questions on 443-254-6530
<tel:443%20254%206530> .

I will be going up to Canada next week to meet our DOM. The freshly overhauled APU is being shipped today by Gulfstream and will be installed by Goderich on the 3rd. If I can't locate extra pictures, I will take more next week for you.</=>
